Office of Legislative Counsel

Monday - 3 December 1956

At a luncheon meeting with the Director I undertook to propose a program for our Congressional relations in the forthcoming session, including suggestions as to Senators and Congressmen who should be invited to the Agency for briefings. I informed the Director that I had been in contact with Sen. Long's office and had requested an opportunity for [] and myself to debrief him on his recent trip to Russia. The Director has also requested Cord Meyer to build up a dossier in defense of RFE's recent activities in Hungary, for use in a possible congressional investigation. The Director feels that emphasis should be placed on the reaction of the Soviet and Satellite governments to RFE activities, which indicate that they have been successful in reaching their targets. We also discussed the [] problem and the possibility that [] might become the subject of a congressional inquiry. I undertook to keep Mr. Amory and other interested parties informed.
